Become a Distributor of ProEconomy's
Copper & Silver Water Treatment Systems

BY APPOINTMENT TO
HIS MAJESTY THE KING
WATER TREATMENT SERVICES
PROECONOMY LIMITED
MILTON KEYNES

Lead the way in Legionella prevention

Since 1993, ProEconomy has been pioneering eco-friendly, EU BPR-compliant copper & silver ionisation. With WRAS approval and a Royal Warrant, our technology is trusted by industry leaders worldwide.

Why choose copper & silver ionisation?

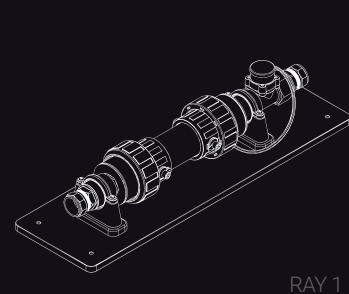

- **Proven protection** effectively controls legionella, pseudomonas, and other bacteria.
- **Backed by science** extensive peer-reviewed research confirms its efficacy.
- **Trusted globally** supported by decades of case studies.
- **Eco-friendly & cost-effective** a sustainable alternative to chemical treatments.

Why choose the RAY system?

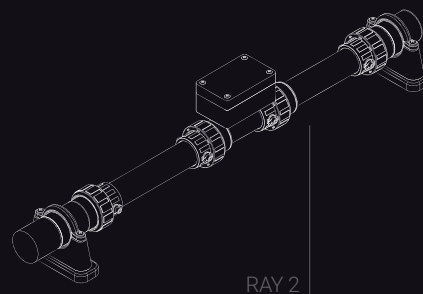

- **99.99% Pure electrodes** unlike alloys, pure electrodes ensure precise dosing.
- **Trusted worldwide** protecting prestigious sites globally.
- **Tailored solutions** three models to fit your site's needs.
- **Advanced technology** remote access & 3d-printed electrode chambers.
- **Cutting-edge software** access to tetras online water management.

The growing market for Legionella

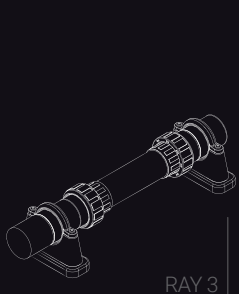

Global outbreaks are increasing due to climate change, aging infrastructure, and stricter regulations. Governments are implementing tougher water safety laws, driving demand for advanced disinfection solutions. **As a distributor, you'll be at the forefront of this expanding market.**

Why Partner with ProEconomy?

- ✓ **Regulatory Compliance** - EU BPR & WRAS approved.
- ✓ **Strong commercial returns** Competitive pricing & ongoing support.
- ✓ **Comprehensive training** Expert knowledge for your team.
- ✓ **Marketing, Engineering & Sales Support** Co-branded materials, case studies and ongoing support.

Who we're looking for

We seek experienced distributors in water treatment, with strong industry connections and a passion for public health and sustainability.

Let's build a successful
partnership together.
