

Job Title: Project Manager

Department: Project Management

Location: Head Office, Milton Keynes

Job Type: Permanent

Working Hours: 37.5 hours + overtime

Salary: £35,000 - £45,000 per annum (Dependant on experience)

The Company

Founded in 1993, trading for over 32 years, we have been revolutionising the water industry worldwide by developing a water treatment system known as the **Orca**. This copper and silver ionisation system eradicates harmful built environment water pathogens such as Legionella and Pseudomonas ensuring the water system is safe for human consumption.

In 2015 we launched a water sampling service which offers a wide range of parameters for different water systems. The service is inclusive of the on-site sample, lab analysis and management service using our cloud based water management service, **Tetras**.

Further to the company's success we launched **Reef** our water hygiene and treatment services. Our mission is to deliver highest possible service by building on exceptional customer experience, providing innovative solutions and always delivering on our assurances. We have established an exceptional reputation in a variety of sectors working predominately in hospitals, universities, care homes and schools.

The Job

We are committed to recruiting exceptional individuals who share our culture and would like to work in a water industry environment to achieve personal development and success.

The Project Manager is responsible for the planning, delivery, and management of water hygiene and legionella control projects. The role ensures full compliance with UK regulations (including ACOP L8 and HSG274), while maintaining high standards of safety, quality, and client satisfaction. The post holder will oversee operational teams, manage client relationships, and ensure projects are delivered on time and within budget.

Through the ProEconomy Continuous Competency Programme (CCP), the successful candidate will be trained and mentored in key areas as required, ensuring thorough support in developing; understanding of the Company including its values and policies, software and practical understanding and experience of the services being completed.

Responsibilities

- Manage water hygiene projects from initiation through to completion using PRINCE 2 methodology
- Ensure all work complies with ACOP L8, HSG274, and Health & Safety legislation
- Coordinate engineers, subcontractors, and suppliers across multiple sites
- Act as the primary point of contact for clients, providing technical guidance and updates
- Oversee legionella risk assessments, water sampling, cleaning, and remedial work
- Review and approve technical reports and compliance documentation
- Prepare project plans, schedules, and cost estimates
- Monitor budgets and ensure financial performance of projects
- Conduct site audits, inspections, and ensure adherence to RAMS
- Lead and support team members, including performance management and training
- Maintain accurate records for compliance and auditing purposes
- Promote a strong health & safety culture across all activities

Qualifications

Essential

- Full UK Driving Licence
- A Level, BTEC, T- Level, NVQ Level 3 or equivalent

Desirable

- PRINCE2 Foundation (Practitioner desirable) or equivalent project management certification
- Degree or equivalent in Engineering, Environmental Health, or related field
- Recognised qualification in water hygiene / legionella control (e.g. City & Guilds or equivalent)
- Membership of a relevant professional body (e.g. Water Management Society)

Experience

Essential

- Minimum two years' experience in an project management role or similar role
Or
Minimum five years in a water related role with knowledge and experience of client management

Desirable

- Knowledge of industry relevant legislation and guidelines; including but not limited to, ACoP L8, HSG274, HTM04-01, Water Regulations.
- Experience managing Healthcare or large-scale contracts

Individual Qualities Required

- Strong leadership and team management skills
- Excellent communication and interpersonal abilities
- High level of organisation and attention to detail
- Ability to manage multiple priorities and meet deadlines
- Problem-solving mindset with sound decision-making skills
- Commercial awareness and accountability
- Commitment to health, safety, and compliance
- Professional, client-focused approach

Time to Apply

Please forward a copy of your CV and brief cover letter to recruitment@proeconomy.com
